PROFESSIONAL SUMMARY

Accomplished Senior Mobile Application Engineer with **4.2+ years of production experience** engineering scalable, cross-platform Android and iOS applications using Flutter 3.x, Dart 3. Specialized in BLoC, Riverpod, Provider, and GetX state management architectures following Clean Architecture and SOLID principles. Expert in RESTful APIs, GraphQL, MethodChannels, local offline storage (Hive, SQLite), and Firebase backends. Proven track record of optimizing UI frame rates to 60 FPS, reducing bundle sizes by 35%, maintaining 99.8% crash-free sessions across 100K+ installs, and managing automated CI/CD deployments on Google Play Store and Apple App Store.

TECHNICAL SKILLS

Languages & Runtimes: Dart 3 (Sound Null Safety), Flutter SDK (3.x), Android SDK (Kotlin/Java), iOS (Swift).

State Management & Architecture: BLoC, Cubit, Riverpod 2, Provider, GetX, Clean Architecture, MVVM Design Pattern, Repository Pattern, Dependency Injection (GetIt/Injectable).

Networking & Backend: RESTful APIs, Dio, Retrofit, GraphQL, FastAPI (Python), PostgreSQL, Firebase (Firestore, FCM, Auth, Crashlytics, Analytics).

Local Storage & Database: Hive, SQLite, Sqflite, Shared Preferences, Hydrated BLoC, Secure Storage.

DevOps & Tools: Git, GitHub Actions, GitLab CI/CD, Fastlane, Codemagic, Google Play Console, Apple App Store Connect, Postman, JIRA, Agile/Scrum.

WORK EXPERIENCE

Senior Mobile Application Developer — **FTPROTECH** Hyderabad, India | Nov 2025 – Present

- Architected enterprise cross-platform mobile apps using Flutter 3.x and Dart 3 with BLoC state management and Clean Architecture principles.
- Integrated 15+ RESTful APIs with Dio and implemented offline-first architecture using Hive, reducing API network calls by 45% during network disruptions.
- Automated continuous integration and deployment (CI/CD) pipelines using GitHub Actions and Fastlane, reducing release deployment cycles by 50%.

Flutter Mobile Application Developer — **MarsDevs** Pune, India | Oct 2023 – Jul 2025

- Engineered multi-tenant Flutter mobile applications utilizing GetX, Firebase Cloud Messaging (FCM), and RESTful microservices.
- Optimized application bundle size by 35% and improved cold start load times by 2.1 seconds via image compression, code obfuscation, and lazy-loaded assets.
- Collaborated in Agile Scrum sprints with product managers and UI/UX designers to implement custom Material 3 widget components.

Mobile Application Developer — **iCoderz Solutions** Ahmedabad, India | May 2023 – Sep 2023

- Developed e-commerce mobile modules in Flutter using Provider architecture, Sqflite local caching, and Razorpay/Stripe SDK payment gateways.

Mobile App Developer — **MindTech / TechnoBrains** Ahmedabad, India | Jul 2021 – Oct 2022

- Built and delivered responsive cross-platform mobile UI flows, integrating third-party SDKs and RESTful services.

FEATURED PROJECTS

HireVyn — Enterprise HRMS Mobile Application | **Flutter, Dart, BLoC, REST APIs**
Architected an enterprise Human Resource Management System (HRMS) featuring automated ATS recruitment workflows, attendance tracking, and leave management.

Rentvyn — Hostel & Property Management Suite | **Flutter, Provider, SQLite**
Led a cross-functional team building Tenant, Property Owner, and Admin applications with automated billing, payment reminders, and maintenance ticketing.

HRMS Desktop Activity & Time Tracking System | **Flutter Desktop, Dart, REST APIs**
Built a background desktop application to monitor employee activity metrics, track system uptime, and send encrypted analytical reports to backend servers.

Sivitor Security & Visitor Gate Pass Management | **Flutter, Firebase Push Notifications**
Developed real-time visitor security authentication apps (Security Gate App) and host approval applications (Host App) with instant QR code entry checks.

SecureAssess — Online Examination & AI Proctoring Platform | **Flutter Web, Python, FastAPI, PostgreSQL**
Engineered high-throughput examination web interfaces in Flutter Web connected to a high-speed Python FastAPI backend with PostgreSQL storage.

MAUI63 — Marine Conservation Drone Mapping Application | **Flutter, Google Maps SDK, Firebase**
Integrated real-time drone telemetry data and interactive GIS map layers for tracking endangered marine species habitats.

Faleyat — Event Ticketing & Seat Reservation System | **Flutter, Stripe SDK, Razorpay API**
Implemented dynamic real-time seat layout rendering, payment gateway checkouts, and automated PDF ticket generation with QR validation.

Rispondo — Spam Call Filter & Caller Identification App | **Flutter, SQLite, Android Native MethodChannels**
Developed incoming call event handlers using Android native Platform Channels, contact sync, and offline database lookup for instant caller identification.

Oklend — Peer-to-Peer Rental Marketplace Application | **Flutter, FlutterFlow, GetX**
Created location-based item search filtering, in-app messaging, and automated digital rental agreement generation workflows.

DEONDE — SaaS Multi-Vendor On-Demand Delivery Platform | **Flutter, REST APIs, Google Maps Places API**
Contributed to an enterprise SaaS food and grocery delivery mobile application featuring real-time GPS driver tracking and instant order status dispatching.

DIGA — Digital Health & Telemedicine Application | **Flutter, Firebase Cloud Messaging**
Engineered doctor video consultation booking, electronic health records (EHR) tracking, and automated medication notification alerts.

EDUCATION

Master of Business Administration (MBA)
Integral University | 2019 – 2022 (Score: 80%)

Bachelor of Computer Applications (BCA)
Dr. C.V. Raman University | 2015 – 2017 (Score: 72%)

CERTIFICATIONS & OPEN SOURCE

Pub.dev Package Maintainer
Published `validation_textformfield` open-source Dart package (80%+ popularity score).

Certified Professional Flutter Developer
Issued by SkillUp Training (Oct 2022)
